Profile

I'm Tomás Carreras, graduated from university with a Bachelor's degree in Video Game Design and Development at CITM-UPC. I work hard and I love what I do. I have a passion for video games and movies, as well as for drafting Magic: the Gathering. I also really enjoy tabletop games but I get really competitive.

What I've enjoyed the most so far has been communicating directly with the design team and doing my best to bring their vision to light. I think it's important to have open and bidirectional communication between departments, since this ensures a more pleasing experience for everyone, and I think I can help with this.
